- Gaining experience in both Agile and Waterfall
- Staying up to date with the latest software testing strategies and tools.
- Working closely with cross-functional teams to ensure quality
- Training in automation

Technologies you will be using:

- TestRail
- Jira
- Browserstack
- Jenkins
- Confluence

What you need for this position:

- Excellent communication skills

- An ability to think outside the box
- Critical attention to detail and high level of accuracy
- A passion for technology
- An ability to question the spoken/written word

What is desirable but not required:

- A UK BSc in Computer Science or BTEC Level 3 Computer Science or equivalent IT qualification

Salary and Benefits:

- Permanent full time role – Monday to Friday 9.00am – 5.30pm
- 25 days holiday per annum plus bank holidays
- Automatically enrolled onto Company pension scheme after 3 month qualifying period, with employee contributing 5% of monthly salary and GTI match employee contributions
- Enhanced paternity and maternity policies and life assurance cover (subject to serving a qualifying period of 3 calendar months)
- Modern office with pool table and creative spaces
- On-site parking, café and restaurant, riverside walks, canoeing and opportunity to join on-site sports and social clubs.
